

COMPACT7700™

WWW.ACTIVEXRAY.COM

The easiest way to excellent images

- ✓ Simple "one button" operation
- ✓ Easy to move
- ✓ Economical

- *Image annotation keyboard*

- *9"/6" Image intensifier*

- *High resolution CCD camera*

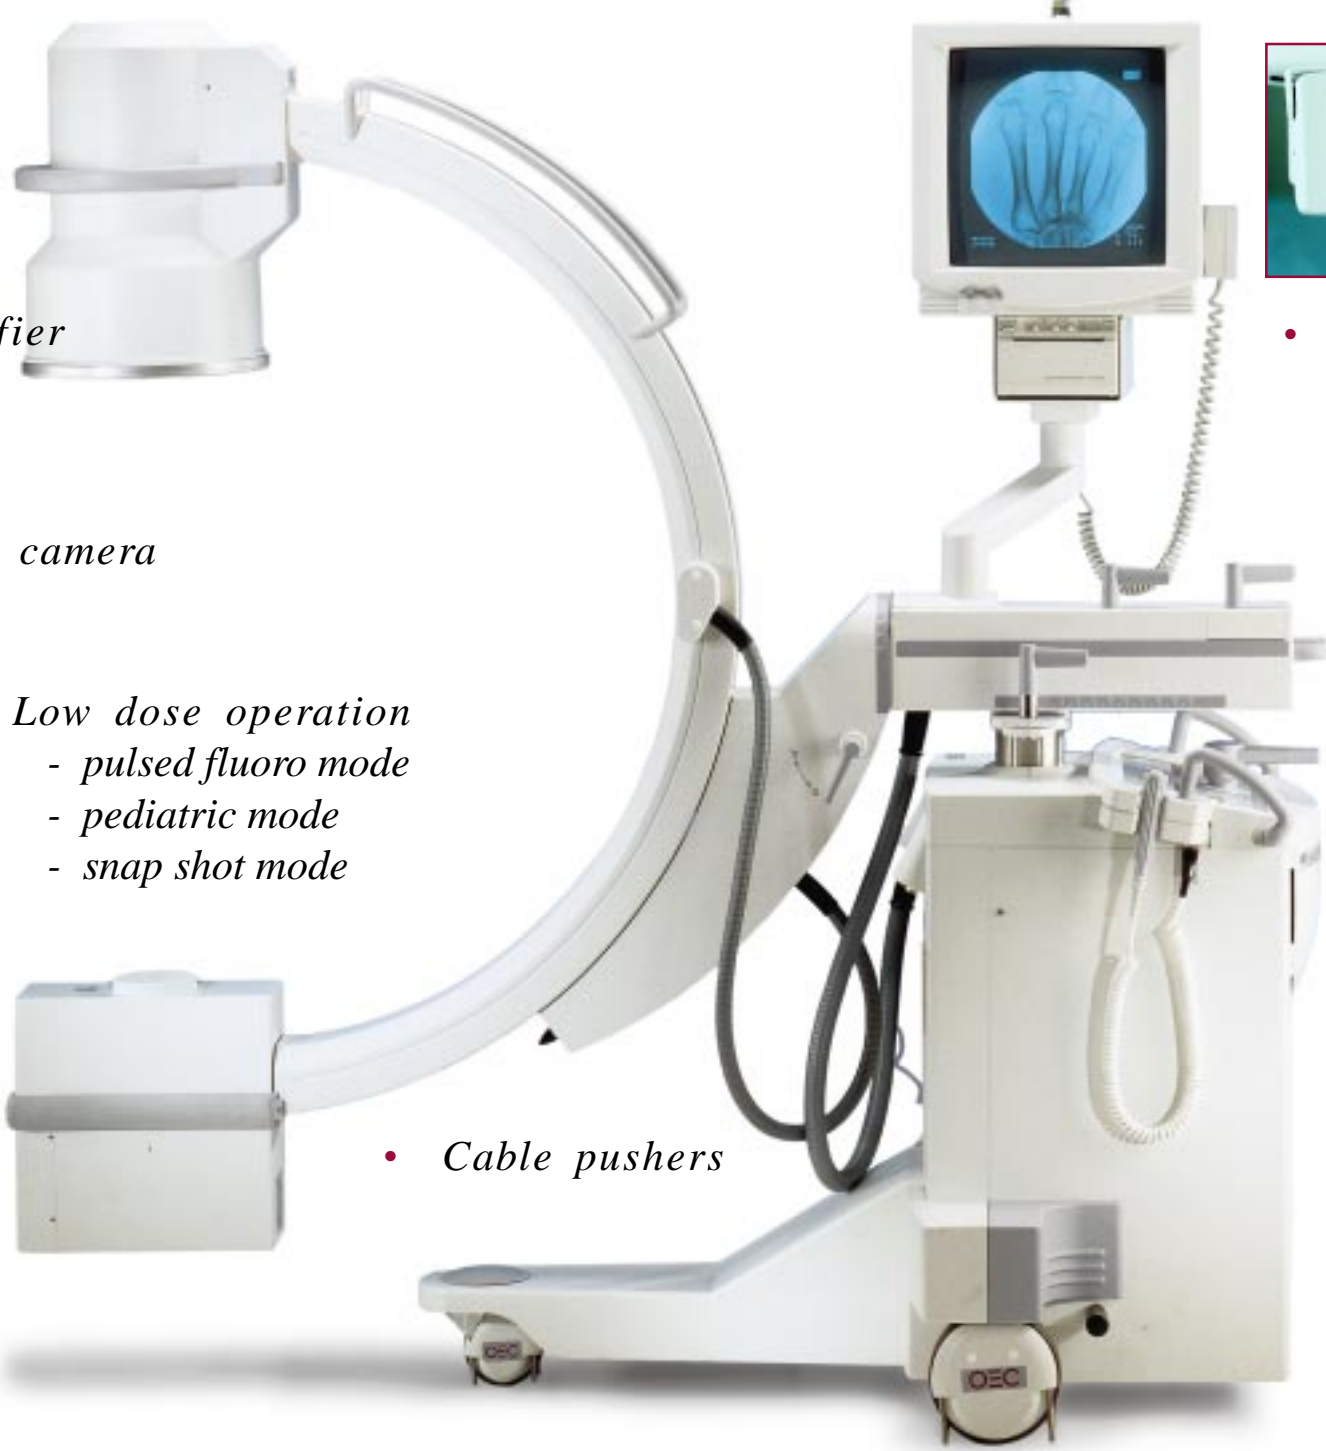

- *Low dose operation*
 - *pulsed fluoro mode*
 - *pediatric mode*
 - *snap shot mode*

- *Easy Transit*

- *ACTIVEXRAY.COM*

- *Motorized image rotation*

- *Cable pushers*

- *Dose area product display (optional)*

- *Convenient technologist's reference monitor*

- *Simple "one button" operation*

- *41 cm (16") square, flicker-free monitors*

- *Removable floppy disk stores up to 5 images*

- *Rapid hardcopy (thermal printer)*

- *Requires minimal storage space*

USER SPECIFIC MODES OF OPERATION

Hand Surgery
Automatically limits x-ray field to correct size for hand surgery, protecting personnel from unnecessary scatter

Chest & Thorax
Reduces motion lag in applications such as pacemaker implants & bronchoscopy

Dense Anatomy
Improves dense anatomy images such as the pelvis or spine

Reduced Dose
Reduces dose to minimize radiation exposure

Automatic Image Adjustment = One Button Operation

Technique parameters continually adjust for optimum image display

- *mA*
- *kVp*
- *Camera gain*
